Version 2.0.0

Table of Contents

Introduction

Function of this plugin

With the BFN Donation Penny, your customers can add an additional item to the shopping cart during checkout. The basic price of the item determines the amount of the donation.
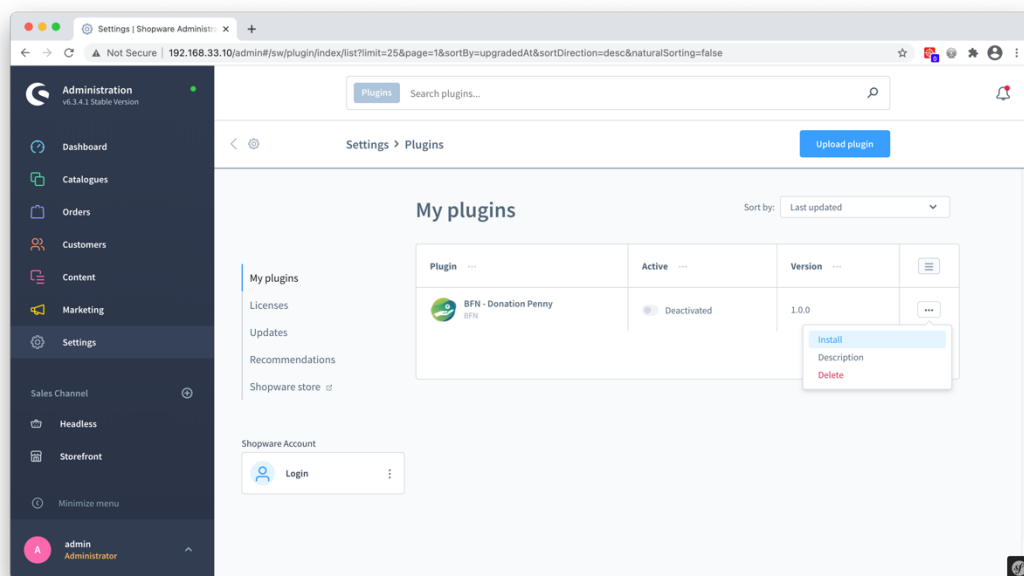

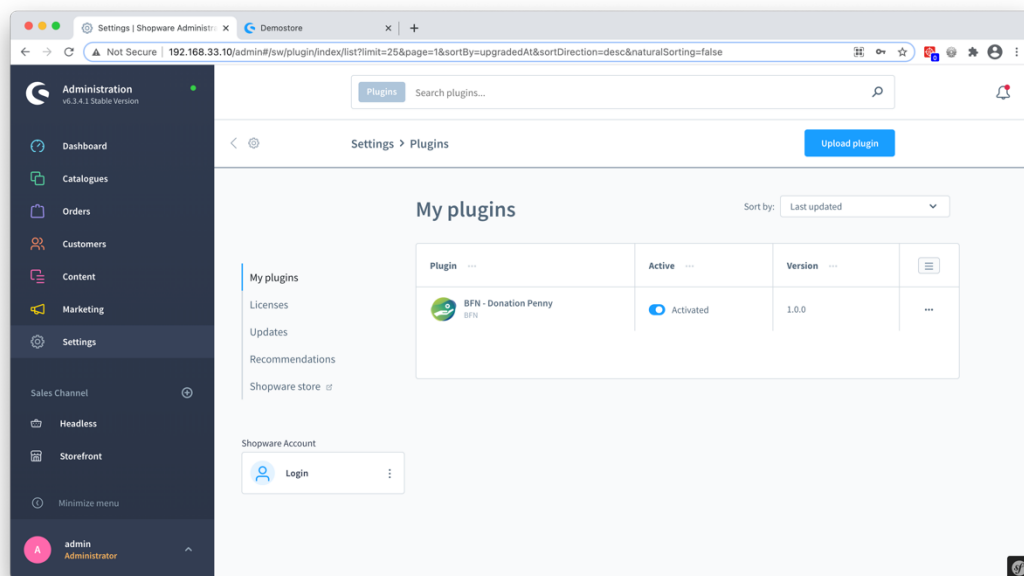

Prerequisite

None

Installation

Installation procedure

1. open the overview of the plugins (Settings > System > Plugins)
2. select BFN - Donation Penny and install (open context menu via the "..." button. Click Install in menu)

3. activate BFN - Donation Penny (move the activation switch to the right)

Configuration

Configuration procedure

Plugin configuration

1. select BFN - Donation Penny and config (open context menu via the "..." button. Click Config in menu)

2. activate the function with the slider and select an article
