Introduction

Function of this plugin

With the BFN Pay What You Want plugin, your customers can choose how much they are willing to pay for an product. The price range is defined by you. In the frontend a slider is displayed with which the customer can set the desired price. In addition, icons can be displayed for the different price levels.

Prerequisite

None

Installation

Installation procedure

- 1. open the extension overview (Extensions > My extensions)
- 2. select BFN Pay what yu want and install the app

3. activate BFN – Pay what you want (move the activation switch to the right)

Configuration

Plugin configuration

1. select BFN – Pay what you want and config (open context menu via the "..." button. Click Configuration in menu)

Advanced configuration

To define icons for different price ranges and customize the text to suit your needs, please proceed as follows:

1. Under Settings -> Extensions there is now a PWYW Configuration item.

Settings Shopware Administri x 🕒 Variantenprodukt Rot M SW x +

- 4. Define the product as a pay what you want product and store the maximum and minimum values.

Note: The product should be assigned to the sales channel. The stored minimum and maximum values must be integers.

Snippets The following snippets were added and are used by this plugin:

Name	Location	Content
bfn- pwyw.messages.productHintText	Slider description	Please select your desired amount.
bfn- pwyw.messages.amountToLow	Error message when a user tries to go below the minimum amount	The selected amount %selectedAmount% € is less than the minimum amount (%minAmount% €).
bfn- pwyw.messages.amountToHight	Error message when a user tries to exceed the maximum amount	The selected amount %selectedAmount% € is higher than the maximum amount (%maxAmount% €).

Plugin in use

View in the storefront

The option is now displayed on the product detail page:

Furthermore, the product listing shows the possible price range:
